# CodexBuddy

首次安装指南

macOS 13+ · Apple silicon

## 1 拖入应用程序，再从应用程序打开

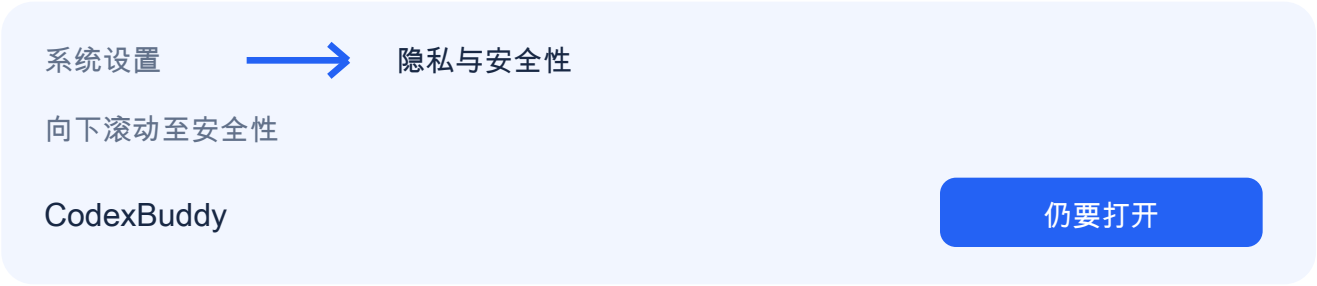

安装后请从 Applications 文件夹打开 App。

## 2 首次启动被拦截时，先关闭提示

当前发行版未经过 Apple 公证。

## 3 在系统设置中允许这一个 App

再次确认“打开”；按系统提示验证即可。

## 4 完成，去顶栏查看额度

此后可正常启动，无需重复设置。

先确认下载来自下方官方 Release，且文件未遭篡改。

图中设置为示意图；若提示包含恶意软件或 App 已损坏，请停止并重新核对下载。

# CodexBuddy

First installation

macOS 13+ · Apple silicon

## 1 Drag to Applications, then launch

Open CodexBuddy from Applications after copying it.

## 2 If the first launch is blocked, dismiss the alert

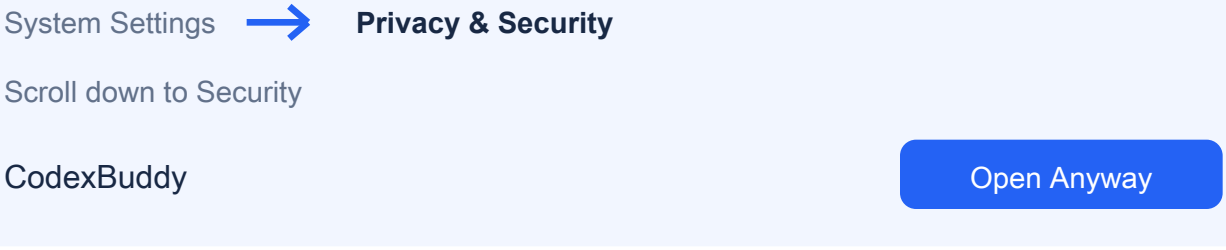

Developer cannot be verified

The exact wording varies by macOS version.

This release has not been notarized by Apple.

## 3 Approve this app in System Settings

Confirm Open, and authenticate if macOS asks.

## 4 You are ready. Find CodexBuddy in the menu bar

Future launches do not need the same approval.

Use the official release below and verify the download is intact.

Illustrations are schematic. Stop if macOS reports malware or a damaged app.
